

BEST SELECTION 30

Investment plans Switzerland, Plan No. 211
 Monthly Report, 01.04.2024

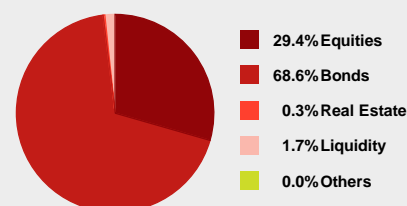

Investment Goal

When selecting the funds, all of the world's major markets are taken into consideration, so as to ensure broad diversification across various countries, currencies and levels of economic development. The most constant funds form the core and guarantee the stability of the investment. Within the further asset classes, a best in class approach ensures that the investment plan only ever contains the best-performing funds. With a target equity component of 30%, the investment approach is balanced and favours CHF. The objective of this strategy is to grow assets over the long term while keeping price fluctuations to a relatively low level.
